A Land Office Business.

The Commissioner of the General Land Office has submitted a report of the operations of the fiscal year which ended June 30, 1884. The sales, entries and selections of public lands embraced 26,884,041 acres, Indian lands 697,129 acres, total 27,581,170 acres. Increase over the year 1883 of 8,101,137 acres, and over 1882 of 13,222,003. The receipts from disposals of public lands are \$11,840,003, and from Indian lands \$998,137; total, \$12,779,130, an increase over 1883 of \$1,073,364 and over 1882, \$4,383,750, to which is to be added \$10,275 received for certified copies of records making total receipts for the year, \$12,789,405. The Commissioner renews his recommendation that the pre-emption law be repealed, and deems it important that the homestead laws be amended, so as to require proof of actual residence and improvement for two years before homestead entry may be recommuted to cash payment. He recommends the repeal of the timber culture act, the desert land law and the stone and timber land act.

Large numbers of complaints are on file of parties fencing Government land. They will be investigated.

The Commissioner points out the necessity for the immediate adoption of some measure by which natural forests may be preserved at the head-waters of rivers where their preservation is expedient for climatic effect. He says there is no good reason why lands worth from \$25 to \$100 per acre for timber, should be sold for \$1 25 and \$2 50 per acre, and he favors withdrawal from sale, of all distinctively timber lands, until an examination and appraisal can be made. After examination, permanent timber reserves should be established.

THE OUTSIDE "CRANKS."

Doc. Hogan, the cranky editor of the cranky hermaphrodite sheet, will soon become a fit subject for the political Damphool Infirmary, of which "Boss" Beck is chief. We like a liar but the Dr. suits us too well, and in his overweening eagerness to play the role of Friday to his "Boss" he makes an ass of himself. He is entirely off his nut when he publishes that we ever made any remark about the farmers seeking it to Beck for introducing a bill in 1871 to tax the net proceeds of ranches. If he did introduce such a bill it only shows what an ignoramus he was at that time, and as the Dr. boasts of having helped Beck draft such a bill it goes without saying that the pair ought to have had Dunces caps placed on their heads. The Dr. says that "if the bill had passed and were now the law, such farmers as Al. Longley, Huffaker and Geo. Alt, instead of paying taxes on eight or ten thousand dollars, would only pay on two, three or possibly five hundred dollars." While the pair were at it they should have released Longley, Huffaker and Alt from paying any taxes. According to the property they own neither one of them pay any too much now. We are sorry Hogan is not on the Greenback ticket with the "Boss" so that they could go the whole hog between them, and scatter ink bottles and books as in 1875. What have the people of Washoe county done that it should get the Asylum and then have the big cranks roaming at large on the outside.

Jerry Schooling, in the Senate, advocated the bill remitting the penalty tax of \$100,000 due from the Bonanza mines. Hogan and the other reformers of "Boss" Beck's Greenback party, now endorse him. The penalty tax was collected and paid into the State and Storey county treasuries. If reform and reformers is what Mr. Schooling is to be elected on, it is right that the people should know it, and as we go along we shall probably find out what is meant by reform and reformers.

Hogan said a few days ago that Beck would have esteemed it a compliment to have been tendered a nomination for the Assembly by the Republicans. Of course he would. But they didn't tender it. Ever since the Republicans ceased tendering Beck and Hogan nominations they have been out of the party, and yet claim the party has left them, and not they it. The party has "left" them.

"Boss" Beck is a great man (in his own estimation) and one of wisdom and foresight, but all the same he went on record in 1871 as against the proposition of the employment of Chinese in the Federal Mint at Carson. In 1878 he was the workingmen's nominee for the State Senate.

The people of this country need protection. It is to be secured through a Republican Congress and President. Vote for and with the party that has the best and noblest interests of the people and country at heart.

Lander county will probably poll 1,000 votes next month.

The Democracy harps much upon defalcations during Republican administrations. But the Bureau of Statistics furnishes tabulated statements showing, from Washington to Arthur, the total loss to the Government and the proportion thereof to each \$1,000 involved. Under Washington it was \$2 22; Adams, \$2 50; Jefferson, \$2 75; Madison, \$4 16; Monroe, \$8 58; Adams, \$8 39; Jackson, \$7 52; Van Buren, \$11 71; Harrison and Tyler, \$6 40; Polk, \$4 08; Taylor and Fillmore, \$4 19; Pierce, \$3 56; Buchanan, \$3 18; Lincoln, 76 cents; Johnson, 57 cents; Grant, 24 cents; Hayes, 3 mills; Garfield and Arthur, 1 4-5 mills. That is to say, prior to the incoming of the Republican party, the average loss was \$5 21 of every \$1,000 collected and disbursed by the Government, while under the Republican administrations the average loss has been but 36 cents. If there is any merit, therefore, in the declination of dishonesty, it is all on the side of Republican administrations of the Government.

The tariff question is a mere family affair. First, your little family at home; then the corporation, village, township, county and State family, capped by the National family. No man who desires to keep his own family together, or the combined families in one, will vote for free trade, or for the man who stands on a free trade platform, for such a vote would be a vote for the destruction of the elements that now bind these families together.

The exhaustive manner in which Gov. Boutwell treats the history of the Republican party in his book "Why I am a Republican" is very astonishing, when one thinks how few words he uses to follow the history of the party from its inception to the present time. There was never anything more concise, and there never was anything clearer, than the way he presents the protection policy of the Republican party.

When in 1871, Beck reported against removing the county seat from Washoe to Reno, he admitted that a majority of the people would be benefited, but he said he would not admit such a condition of things could be permanent. Reno is still here. What a wonderful man of wisdom and foresight the Boss was in 1871!

General Grant thinks our Consuls at foreign ports should be permitted to engage in commercial business, and act as agents or drummers for American manufactures, thus securing better pay for themselves and increasing the country's exports.

The assessment list—that is, the list of mines on which assessments are now pending, is unusually small. There has not been a time in ten years when there were so few mines asking for aid.

The public debt, during the month of September, was reduced in the sum of \$12,000,000. The public debt was a creation of the Democracy. Is it safe to give that party the control of the Government?

Jerry Schooling was elected to the Senate four years ago to vote for James G. Fair. If elected to the Senate this Fall he will again vote for Fair or some other Democrat two years hence.

The word free trade is almost synonymous with free labor—as the price you would obtain for labor under a free trade system, would be the next thing to giving it free.

A reward of \$100 has been offered by the State for the capture of Francis, the escaped prisoner.

Frank Hutton has been appointed Postmaster General. A deserved case of promotion.

Vote for Blaine and protection to American industries on the 4th of November.

Germans for Blaine.

There was a large meeting of German Republicans in New York last Friday evening. All of the old-time, well-known, influential Germans were present, and enthusiastic for Blaine, thus dispersing the well persisted-in story that the Germans had bodily left the Republican party.

Material Democratic Aid From the Mormons.

The National Republican Committee is in receipt of information, which they consider trustworthy, that the Mormon Church decided soon after the nomination of Cleveland and Hendricks was made, to take a hand in the pending canvass by giving aid of a substantial character to the Democratic ticket. The information is to the effect that a council of the Mormon Church, held in Salt Lake, was voted to give to the National Democratic Committee one-tenth of the church tithings, to be used in aiding the election of Cleveland and if possible, a majority of both houses of Congress. In return for this contribution the Mormon council secured a promise from the Democratic Committee, that in the event of success, Utah shall be admitted to the Union as a State. As an additional inducement for Utah's admission the council promised that she will, as a Democratic State, send two Democrats to the United State Senate.

Stand Firm.

Let every Republican stand firm in support of the county. The national ticket must be strengthened in every way. "Boss Beck's" ticket is in the interest of the enemies of the Republican party.

Its Intent.

The intent of "Boss" Beck's ticket is to defeat the Republican ticket.

Vermont has re-elected Senator Morrill.

THE WALKER LAKE RESERVATION.

Plate Nomads Holding the Best Land in Nevada.

The Virginia Chronicle says "the Walker Lake Reservation is 54 miles long and of an average width of three miles, comprising some of the best agricultural and grazing land in Nevada. It contains 162 square miles, or 103,680 acres—enough land to make good sized farms for 10,000 citizens, and it would all be taken up within a year if the government could be made to see the great benefit to be conferred upon Nevada by removing the Indians to the Pyramid Reservation and declaring the Walker Lake domain open to pre-emption.

There is no good reason why a few Plates should hold this magnificent tract of land to the exclusion of the white men who would be glad to settle upon it and make homes which would add greatly to the prosperity of the State. Most of the Indians allotted to this reservation spend their time at the mining camps along the Carson & Colorado road, choosing rather to depend upon the leanings of hotel and restaurant tables than to live upon the rations furnished by Uncle Sam. For months at a time the reservation is quite deserted, but it is money in the Agent's pocket. If he has 200 Indians on his ration-roll and there are but a dozen or so to be fed, it will be seen that he is doing a thriving business.

The Indian returns to the reservation only when driven to it by inclement weather, when he cannot loamge about mining camps and play poker.

The Pyramid Reservation is large enough for all the Indians in the State, and they should be compelled to accept that as their proportion of the public domain, and to cultivate it, as a few of them do now. If the Walker Lake country were made public land it would in a few years become a paradise, a far more delightful spot than Mason Valley, and ten times more valuable. Besides the rich agricultural lands it embraces in its valleys, the hills on either side are full of mineral deposits which the white prospector cannot touch, and the Indians certainly will not work them. The lake and river are abundantly supplied with trout, and it is 'a good country' generally.

Two important things must not be forgotten, however—first, that the Indians have rights that must be respected—which the Government is bound to respect. Second, that rich land grabbers—eager for big cattle ranges—would be among the first to secure the land if thrown open to settlement unless some prohibition against such 'hogging' were made by the Government."

The Legends of Hawaii.

The Enterprise says Hon. R. M. Daggett, United States Minister to the Sandwich Islands, is making a collection of the legends and traditions of the people of that island kingdom. He will have these ready for publication at no distant day. Very few of the legends of the Hawaiians have ever been published. Their traditions go back to the creation, and their account of the deluge and other events in the dim past are said to be wonderfully like the accounts in our Old Testament. These things have been handed down from chief to chief and from father to son for ages and ages. Long before they saw the first white man they were in the habit of meeting at stated intervals and going through recitations of these traditions. On such occasions the chiefs and other leading men from all the islands came together, and the legends and traditions, as recited by different men, were carefully compared in order that nothing might be added and nothing omitted.

Hon. Geo. H. Morrison and Captain J. F. Alexander, will address the people of Nevada on the political issues of the day as follows: Wells, Friday, October 24; Elko, Saturday, October 25; Carlin, Monday, October 27; Battle Mountain, Tuesday, October 28; Winnemucca, Wednesday, October 29; Wadsworth, Thursday, October 30.

Having been ignored in the County Convention, the Democrats of Candelaria, held a meeting the other day, and resolved to knife the ticket and support a majority of the Republican nominees.

Frank Leslie's Sunday Magazine

For November will prove of equal interest to the young and the old, the reader for amusement only, and the thinker—in fact, to all classes; for in it may be found something to interest all. The opening is a careful study, by the Rev. Geo. T. Rider, of the University system of education as illustrated in the English Universities of Oxford and Cambridge. An article on "Hymns and Hymn Tunes," by D. E. Hervey, is both historical and critical. Dr. Talmage has a trenchant expose of the imposture of Spiritualism, and in The Home Pulpit he preaches on the Christianized Vote. The Carter Family, Joseph Barnby, and John Francis Barnett, are treated in the Sacred Musicians series. A charming Southern story, entitled "Sophy," is contributed by Mrs. Adelaide C. Waldron; and there is a notable article, "Troubadours and Trouveres" with a portrait of Frederic Mistral. The Rev. Geo. W. Nichols contributes a twelfth letter to The Collection Basket, this time treating of the remarkable changes in New York since his boyhood. The number is profusely and handsomely decorated as usual. Price 25 cents a number, \$2 50 a year. Mrs. Frank Leslie, Publisher, 53, 55 and 57 Park Place, New York.

They Ought to be Hanged.

On the 8th instant the jail at Baker City, Oregon, was destroyed by fire, and Charles Meyers, the only prisoner confined in the jail at the time, was burned to death. Meyers was held on a charge of cattle stealing, awaiting the action of the Grand Jury. At this distance it must occur to the mind of ordinary mortals that the officers in charge of that jail are guilty of a crime akin to murder. In the eyes of the law at that stage of the proceedings, Meyers was as innocent of the crime as the man who caused his arrest, and whether in point of fact he was innocent or guilty, the officer, in charge, through whose wicked and inexcusable negligence such a tragedy was rendered possible, deserve the severest penalty known to the law.

Hon. Geo. H. Morrison will address the people of Nevada on the political issues of the day as follows: Hamilton, Wednesday, October 15; Pioche, Friday, October 17; Ward, Monday, October 20; Taylor, Tuesday, October 21; Cherry Creek, Wednesday, October 22.

It has been storming in the mountains for the past two days.

REPUBLICAN PLATFORM!
Adopted at the State Convention Held in Carson, September 4th, 1884.

The Republican party of Nevada in convention assembled deems it unnecessary at this time to supplement its platform of principles, adopted at the convention held at Virginia City, April 30, by adding anything further upon questions of national concern. It renews its adherence to the principles embodied in that platform, and to day, fully confident of the success of the Republican party of the Nation in the coming Presidential election, congratulates the Republican voters of the State upon the selection by the Chicago Convention of their choice for standard bearer, that dauntless and resolute patriot and statesman, James G. Blaine, with General John A. Logan as his associate on the ticket. It adopts as an intelligible creed of political principles the platform of the last Republican National Convention, the triumph of which principles it believes will insure a renewed era of national progress and prosperity in the political campaign which has to be fought out in the State of Nevada the Republican party believes it can render no higher service to the people than by calling their attention to the imperative necessity which is upon them to demand and secure retraction in every department of the State Government. It therefore declares:

First—That the Republican party of Nevada, when it says reform, means it, and that, disgusted with the vague and idle professions by which, year after year, the intelligence of voters has been insulted, their credulity overtaxed, and their long-suffering patience abused, it declares that it is in favor of, and will seek to carry into effect by Legislative enactment the following specific measures of reform, and any others that may be developed as salutary:

The reduction of the number of members of the Legislature, and the number of officers and employees of both houses thereof.

Second—It is well known and universally conceded that the existing high rates of State and county taxation now levied and collected are burdensome and oppressive to the people of the State, and thereby tend to discourage immigration and the introduction and investment of capital, therefore, be it

Resolved, That it is the imperative duty of our next Legislature to devote its early and constant attention to reform legislation that such laws may be passed as will bring about a marked reduction in the present expense of running our State and county governments, and by a reduction of the number of existing judicial districts, consolidation of county governments, State and county offices and reduction of salaries of not less than thirty per cent.

Third—That we are in favor of amending the State Constitution, and pledge the Republican party to that method of constitutional reform, so as to limit the regular sessions of the Legislature to forty instead of sixty days, as at present.

Fourth—That in view of the fact that necessary constitutional reform can be accomplished by amendments to the State Constitution as speedily and effectively as by a revision of that instrument by a Constitutional Convention—a doubtful experiment under the most favorable circumstances—we hereby recommend the voters of the State to vote at the next general election against calling a Constitutional Convention.

Resolved, That in the mining, manufacturing, agricultural and grazing interests of this State lie the elements of life and prosperity. We therefore pledge the Republican party of this State to legislation tending to the fostering and advancement of these interests.

Resolved, That we with pride point to the administration of President Arthur as a model for the better conduct of this Republic, and we congratulate the Nation upon the eminently successful services rendered by him as President of these United States.

Resolved, That as citizens of the State of Nevada we are proud of the record made by Senator J. P. Jones in the halls of the National Legislature, and as Republicans we congratulate ourselves and our party in having a man at the head of the party in this State whose private life is irreproachable, whose public life is stainless, whose ability is universally recognized, and whose position among the leaders of the Republican party in the Nation and in the Senate of the United States is such as to give any resident of Nevada just cause for pride.

Resolve, That this Convention adopt and endorse as its declaration of principles for the present campaign, the platform adopted by the National Republican Convention at Chicago, in June, and the Republican State Convention at Virginia City, April 30, 1884, and be it

Resolved, That our representatives in Congress should use all honorable endeavors to secure an appropriation for the purpose of sinking artesian wells, thereby increasing our acreage of farming and grazing lands throughout the State, and be it

Resolved, That this Convention favors and recommends just and generous legislation for the purpose, and to the end, that the great mining industries of the State of Nevada may be strengthened, and the mineral wealth of the Silver State be fully and profitably developed.
